

# LEADERS IN THE INDUSTRY

Marked Safe is a sister company of Symplicity Designs and United Sign & Trimline.

Over the last decade, we have helped over 400 organizations create effective and efficient workspaces to support scaling their business.

In many, we had to help organizations understand the importance of safety culture to their customers, employees, and ultimately profitability.

When sought help to bring United Sign & Trimline back online to produce face shields for the front lines, there was no guide. We had to build it. And it was clear every owner was going to have to do the same.

A COVID-19 operational plan is mandatory in most jurisdictions as a condition of opening. Yet less than 10% of companies have an official health and safety committee.

**We founded Marked Safe to help micro, small, and medium sized businesses re-open and stay open.**
